

11 incorporate the phrase "adapted to" to obviate the formal objections to those. The claims and the specification have been reviewed and additional minor amendments have been made to obviate informalities. It is noted that the vacuum chamber identifying numeral was separated by an undue number of lines from the first identification of that element. This has been corrected by amendment.

In view of the indication of allowable subject matter and the foregoing amendments to the claims and to the specification and the proposed correction of the drawing, it is respectfully submitted that the application is in condition for allowance, subject to submission of new formal drawings with the issue fee.

Reconsideration and allowance are respectfully requested.

Respectfully submitted
